Managing Vertebrate Pests in Your Yard & Garden highlights ways to manage the “love-hate relationship” many people have with residential wildlife.

John Loegering is a Professor in the Agriculture and Natural Resources Department at the University of Minnesota Crookston. His research interests include: wildlife-habitat relationships, wildlife-human relationships, riparian and wetland ecosystems, aviation ecology, and quantitative ecology. He is a curator for the UMC Wildlife Museum.

Vegetable Gardening in Minnesota: Things You Need to Know provides solutions to many gardening headaches that not only give us a quality crop, but also make vegetable gardening more enjoyable!

Steve Poppe the Horticulture Scientist at the University of Minnesota West Central Research and Outreach Center in Morris, MN. With over 40 years of experience, his program provides scientific evaluations of annual flowers, herbaceous perennials, high tunnel vegetables, low tunnel day-neutral strawberries, June bearing strawberries, apricots, woody plants, windbreaks and shelterbelts, ornamental grasses, and hardy shrub roses.

Coloring with the Full Box of Crayons: Flowering Shrubs for Season Long Color in the Landscape introduces new shrub species and cultivars as well as common shrubs to enhance your landscape.

John Ball is a Professor in the Department of Agronomy, Horticulture & Plant Science at South Dakota State University in Brookings, SD. His areas of special interest include: the influence of urban development on forest fragmentation; the influence of tree cover on residential heating and cooling costs; and the competitive relationships between ornamental trees and turf grasses.

What’s Up Blue Spruce? explains why the blue spruce is over-planted and provides alternative options so you can weigh the pros and cons and choose the best evergreen to fit your landscape.

Tony Guggisberg and Kevin Schweiss started River Creek Nursery in New Ulm in 1995. The nursery offers a wide variety of trees, shrubs, evergreens, perennials, and annual flowers when in season.
Horticulture Day Registration

Wednesday, April 3, 2019
